OPEN POSITIONS

Contingency "Footnote" Rules

Proportionality Rule: The recommendation to enter at the close obviously cannot be met. It means enter at the next open. In spot, normally the close and open are only a few points apart. But, if the open is 15 points or more away from the close, apply the number of points in the stop and target to the actual open. This prevents stupid stops and wrong targets. A version of the proportionality rule is used in Rule 3 below.

If the discrepancy between the close and ensuing open is 40 points or more, do not apply proportionality rule. The move has already happened and the probability of a gain is very low. Do nothing.

Rule 1. Gap Rule: If the open gaps beyond the Recommended Entry by at least 15 points, apply the stop and target proportionately to the actual Open. This applies even if there was a guerilla entry, i.e., some price other than the Open.

Rule 2: Runaway Move: If the move continues in same direction by 40 points after taking profit or from last close if re-entry is not hit, re-enter in same direction with a stop 40 points and target 60 points away from entry. You can also apply Rule 2 to the last trade if it's stopped out (stop level + 40) when Rule 3 is disabled.

Rule 3: Recovery Rule: Re-enter at same level as original if price returns to it after a stop, using the same stop and target as originally instructed. But we need to adjust the stop or target if the old stop or target is a stupid number, either delivering the opposite outcome (e.g. loss on a target) or a small number of 15 points or less. Therefore, if the difference between entry and stop or target is negative or 15 points or less, adjust the stop to 38 points from entry and target to 44 points from entry.

Do not use Rule 3 more than three times.

Rule 4: Reversal Rule: If the price moves 80 points in the opposite direction after a stop or target, or from the close if re-entry is NPR, reverse direction with stop at 44 points and target at 48 points. The number of points to use in the Reversal Rule changes from time to time as ATR changes. It will always be noted in this commentary box.
